

Infinite Wisdom

Of Manju Bharat Ram Ma'am

"Dear Children... I would like to tell you the reason why we have selected the word 'Shri' for our school logo. The word Shri has many lovely meanings, which would set certain values for us, not only in our school, but also in our life ahead. It means creation, abundance in life, prosperity, auspicious, graceful, always shining, beautiful, capable, having good principles. It is also used as a prefix in front of a name to show honour and regard. Isn't it amazing that such a small word has such a wealth of meaning."

Volume-1, Issue-1 of Shri Patrika ~ January 1991

"In order to achieve success in life, children today, must possess the 5 C's ~ Capability, Confidence, Creativity, Compassion and Communication skills."

"... when we started The Shri Ram School, we were very clear in our mind that this institution would differ in concept and approach... the focus would be on the child; the idea being that of nurturing every individual student's potential to the fullest."

Shri Patrika**

"I feel the curriculum of a school is like a classical raga... the swars are defined for each raga but it depends on the musician's ingenuity to present it innovatively. In the same way, at The Shri Ram School, we innovate within a broad framework to make learning exciting, meaningful and relevant."

I have never understood this word 'boredom'. In my opinion the greatest gift a child can receive is boredom. That is the time when one's creativity is unleashed, imagination takes flight and character is built. You must have heard the saying, 'Necessity is the mother of invention'... so the next time you find yourself at a loose end... invent! Don't look to others to provide entertainment, find it within yourself and craft the person you are going to be... creative, vibrant, self possessed and secure within yourself... in short, an achiever!
